FINANCIAL AND COMMERCIAL.

The duiness in the Wall street markets continues. When the speculative fever is so aliased that stocks and gold are utterly quiet the public mind is given to more legitimate pursuits. Duiness in Wall street is a healthy sign for the commercial world. If Congress would only adjourn anstanter the financial situation is just exactly prepared to give the Money is in plentiful supply and evenly distributed at all the great business centres. Chasago and New Orleans are shapping it to New York for lack of em-ployment West and South. New York has more than enough to accommodate the stock gamblers, who get all they wish at six to seven per ceat. Her merchants are readily accommodated at bank at seven per cent, and on the street at seven to eight per cent. Indeed, the note brokers report a good demand for prime accept-

ances at the figures last quoted. Time loans are more easily negotiated than they could be a few works since, and the impression exists that the spring stringency in the money market is to be recarly to-morrow out of respect for the memory of General Thomas, whose funeral services will then

Gold was strong but mactive, the extreme quotations being 111% and 112%. The latter price was made in the forenoon upon the steaduress of ex-change and the reiteration of the statement that the Secretary of the Treasury would not anticipate the ness the price subsequently fell off to 111%. Late in the day it was stated from Washington that Cougress would sacrifice the Funding bill rather than repeal the Public Credit oill, upon which gold became strong again. the day's business under a falling off in the invest-ment demand and through realizations by those who had bought previous to the recent advance. The speculative interest seems to be content with light returns, and is just now indifferent about repurchasing until the market goes off again. The currency sixes were heavy and a quarter to a half per cent lower. The latest street prices were as follows:—United States currency sixes, 111½ a 11134; do., 1881, registered, 11334 a 114; do. do., coupon, 114 a 114½; do. five-twenties, registered, May and November, 106 a 106½; do. 1862, coupon, do., 110½ a 110½; do. 1864, do. do., 100% a 100%; do. 1865, do. do., 100% a 110%; do., 1865, coupon, 108% a 108%; do. 1867, do. do., 109% a 109%; do. 1868, do. do., 109% a 109%; do. ten-forties, registered, 105% a 108; do. coupon, 106% a 106%.

THE GOVERNMENT PURCHASE OF BONDS. The offer of the government to purchase bonds elicited proposals of nearly three millions, which large amount occasioned the heavier market for governments above noted. This purchase is the first in the Treasury programme for April, as yesterday's disposal of gold was the first sale of government treasure under the same regulation. The ac-

STOCES STRONG AND HIGHER.

The stock market was fairly active, but on a very moderate volume of business. New York Central was again pressed for saic, and declined to 91%, under offerings from parties prominent in the bear attack of last September, and who are now said to possess the point as to the fate of the bill to increase the rate of fare, at present pending in the State Legislature. The street seemed to discredit the apparent purposes of these sales, and the price of the stock eventually recovered. Lake Shore advanced to 88-a clear rise of over one per cent, which was commented on as a notable fact in so quiet a market. St. Paul, on the other hand, declined one per cent, on account of the newspaper announcements of a parchase of an adoling road, the acquisition of which is not esteemed desirable, while the directors assembled to-day to consider a proposition to unite with the Western Union Railway, which runs between Racine and Port Byron. Rock Island was neglected and weak. New Jersey Contrat advanced to 104%, under purchases which are said to be in the interest of persons destrous of controlling the approaching annual election, with a view to oust the present administration under whose alleged inefficient management the road has ceased to pay dividends. The other railways were strong. In the express stocks United States was weak and declined to 43%. In the miscellaneous shares Western Union advanced to 33%, in the expectation that as the time for the adjournment of Congress draws near there is less probability of rivalry from a government telegraph system, and Pacific Mail was strong on the expected publication of the annual report, the chief features of which were given last week in this column.
